

Cloudslide

Managing speaker presentations painlessly

Friendly for organizers

- Intuitive web management interface
- Easy program scheduling uploading
- Oversee user usage & reminder

Unattended but controlled

- Speakers handle their uploads themselves
- No file format or directory restrictions
- Automatic disk quota management

Event Assessment

- Surveys for speakers
- Copyright/publishing authorization management
- Perpetual web access for public presentations

Friendly for speakers

- Standard file access style (Owncloud)
- One location per talk
- Shareable access for co-authoring

Last minute access

- Organizers define time-frames and deadlines
- Uploading availability up to the session beginning
- Speakers could update files after the conference

Crossplatform

- Standard web access
- Native clients

Friendly for IT/Room Clerks

- Can be fully installed in 5 minutes
- No more USB or HDMI-VGA vs Beamer fights
- Autonomous presentation/session update in every venue

Secure and trustworthy

- Passwordless access
- Unique encrypted URL per talk
- Secure access through https

Flexible

- Highly customizable: Multi-session, Multi-block, Multi-congress and Multi-organizer
